Intro Video

System Requirements:
Windows 64-bit OS

Weather Resistant IPX5

Four-season protection against adverse weather conditions. Rain or shine, film perfect time lapse videos.

Industrial-grade Clamp

Designed to meet the extreme durability requirements of filming in construction and industrial environments. Unique multi-point mounting design enables you to adjust the clamp to get your perfect view angle.

32ft Ruggedized Cable

Connect to your camera from the ground using the 32ft (10m) durable and construction-proof cable. Our cable has UV coating and special waterproofing plug and seal to ensure safe long-term outdoor use.

Camera Status

The fear of accidentally bumping and changing your camera position, mid-time lapse, is a thing of the past. Brinno Command Center is an all-in-one command and control platform that allows you to access your camera through your laptop or tablet via the Camera Extender Kit (AFB1000). Use the platform to do a wide variety of actions including: preview camera frame, change settings, check battery and SD card status. Do it all from the comfort of your laptop or tablet.
